LEARNING OUTCOMES

Associate in Applied Science (AAS)
Program: Geographic Information Systems

Upon completion of this program, students will be able to:

1. The student will describe the fundamental concepts of Geographic Information Science and Technology.

2. The student will demonstrate proficiency in the basic functions of geospatial software.

3. The student will demonstrate awareness of fundamental remote sensing and spatial analysis techniques.

4. The student will demonstrate basic proficiency in map creation and design principles, including thematic map display, employment of map projections, and cartographic design.

5. The student will demonstrate proficiency in the creation and acquisition of spatial data.
